Oil Change

&

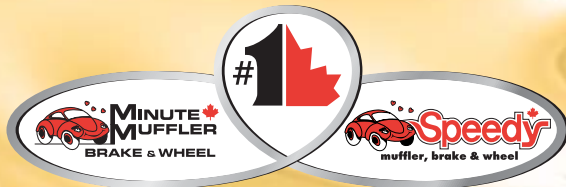

Car Care check-up anywhere...
at any price!

Only

\$29.90

(retail value of \$40)
Recycling Fee Extra. Up
to 5 Litres. Most Vehicles.

We only use premium brand name GF4 motor oil and the Maximizer oil, lube, filter and car care check-up includes a 21-point vehicle inspection performed by a certified technician. It's not an ordinary lube job because; we only do it one-way, the right way. Working hard to keep Canadians safely on the road

Available at participating Minute Muffler, Brake and Wheel and Speedy Muffler, Brake and Wheel locations across Canada

Oil
Change!

Expect more...

Our Maximizer "Long Life" oil, lube, filter and car care check-up has been designed to give you the very best in automotive service and value in Canada.

Unlike most quick lube shops, a **certified technician** will check your...

- Lights, brakes and turn signals
- Wiper blades
- Engine air filter
- Cabin filter (if applicable)
- Emission system
- Battery and charging system
- Belts and hoses
- Radiator and coolant
- Tire pressure and tire tread depth
- Fluid levels

And inspect...

- Exhaust system
- Brake system
- Suspension and steering systems
- Chassis, ball joints, control arms and CV boots
- Differential and axles

Protect your investment and save with our exclusive Maximizer "Long Life" Oil Change & Car Care Checkup Only...

Get more...

Our Maximizer "Long Life" oil, lube, filter and car care check-up also features our **exclusive** oil blend which provides superior lubrication to conventional and high performance motor oils, substantially reducing the possibility of metal-to-metal contact of your engine's critical components. Maximizer "Long Life" with our exclusive oil blend will...

✓ *Extend engine life*

when used on a regular basis saving you money

- **Reduce engine wear** especially when starting your engine, even in extreme cold conditions
- **Enhanced protection** of critical engine parts
- **Prevent** sludge and varnish build-up
- **Lower** operating temperatures reducing stress on your engine's critical components

✓ *Improve fuel economy*

which saves you money

✓ *Improve engine power*

✓ *Reduce harmful emissions*

which is good for the environment
